**An East German car (Trabant or "Trabi"), on a street in Berlin.**

<b>Title</b>	An <a href="#">East German car</a> (Trabant or "Trabi"), on a <a href="#">street</a> in <a href="#">Berlin</a> .
<b>Realia Type</b>	<a href="#">Urban life</a> <a href="#">Transportation</a>
<b>Description</b>	An <a href="#">East German car</a> , (a <a href="#">Trabi</a> ), is <a href="#">parked</a> in <a href="#">front</a> of <a href="#">apartment house</a> in <a href="#">Berlin</a> behind a <a href="#">Peugeot</a> with a <a href="#">European Union license plate</a> . The <a href="#">Trabi</a> still has an <a href="#">old German license plate</a> . The <a href="#">apartment house</a> is <a href="#">covered</a> in <a href="#">graffiti</a> but there are <a href="#">lace curtains</a> at the <a href="#">window</a> .
<b>Pedagogical Applications</b>	Image could be used to discuss East German culture and the fascination with the Trabi built between 1957 and 1991. The car has become a cult auto in post-reunification Germany and there are many Trabi rallies in Germany. The car was also the protagonist in the German comedy "Go, Trabi, Go!" This image could prompt discussion about nostalgia (Ostalgie) for East Germany and the conflicts between East Germans and West Germans following reunification.
<b>LC Subject</b>	<a href="#">Automobiles</a> ; <a href="#">Trabant automobile</a>
<b>Geographic Location</b>	<a href="#">Berlin (Germany)</a>
<b>Vernacular Title</b>	Kultauto Trabi.
<b>Photographer</b>	<a href="#">Gulielmetti, Angela, 1964-</a>
<b>Publisher</b>	REALIA Project
<b>Other Name</b>	<a href="#">Hendrix College</a>
<b>Resource Type</b>	image
<b>Format</b>	jpeg
<b>Media Source</b>	Olympus 3.1 megapixel digital camera
<b>References</b>	<a href="http://en.wikipedia.org/wiki/Trabant">http://en.wikipedia.org/wiki/Trabant</a> ; <a href="http://de.wikipedia.org/wiki/Trabant_%28PKW%29">http://de.wikipedia.org/wiki/Trabant_%28PKW%29</a>

**aus den Köpfen**

In der Zeitschrift "Archiv für Biologie und Rassenforschung", Berlin, ist ein Artikel unter dem Titel "Nutzen, welchen die Luftbombardements aus Standpunkt der rassistischen Selektion und der Sozialhygiene bringen" erschienen. In dem Artikel heißt es u. a.: "Man merkte schon unter Luftbombardements die stark lawastichen Teile der Städte. Da diese Gegenden zuerst vom Luftbombardement befallen sind, wird die Gesellschaft dadurch von diesen Elementen befreit. Schwere Bomben mit einem Gewicht von einer Tonne bringen nicht nur den Tod, sondern rufen auch sehr oft breite Narben Menschen mit schwachen Nerven können demartige Erschütterungen nicht erdulden. Das gibt uns die Möglichkeit, Neumenschen zu konstatieren. Dann bleibt nur noch übrig, solche Menschen zu sterilisieren. Dadurch wird die Reinheit der Rasse gesichert."

Tokio, United Press: Ein Sprecher der japanischen Marine, Visconde auf Tokio, erklärte, daß die Marine zu den bisherigen Erfolgen des Bombardements auf Kanton sehr zufrieden sei. Die Bombardements würden fortgesetzt werden.

Das ist das Heil, das sie bringen!
